

IT STARTS WITH THE CHILDREN

BALDWIN COUNTY DATA OVERVIEW

When Children Thrive, Communities Thrive

Communities that can say, “all the children are well” have babies born healthy, kids who read proficiently by third grade and teens who graduate from high school ready for college and careers. These are kids that grow up in communities where people are educated, employed and housed.

United Way launched the Child Well-Being Movement in order to engage and bring together people and resources across sectors, and to invest in strategies that drive lasting improvements in the well-being of children, families, and the communities that surround them.
